

Optometry Clinic

Never Stand Still

Science

The **UNSW Optometry Clinic** offers comprehensive eye examinations in addition to a variety of specialist clinics. These facilities are available to UNSW staff, students and the general public, in most cases at no charge.

As well as providing excellence in eye care, the clinic is a teaching facility used for educating undergraduate and postgraduate optometry students.

Our recently renovated clinic has state-of-the-art diagnostic equipment that provides the best in patient eye health management.

As part of our complete optometric service, we offer a wide selection of fashionable frames and sunglasses as well as contact lens and solutions. We provide expert advice on spectacle lenses, contact lenses, low vision aids and occupational eye protection.

During teaching periods, **FREE** eye examinations are performed by senior optometry students under supervision of qualified experienced optometrists:

- Session 1: Monday 9th March to Friday 5 June 2015
- Session 2: Monday 3rd August to Friday 30th October 2015
